

# Terminal 3 Soekarno-Hatta International Airport

**Tangerang, Banten**

**Infrastructure & Institutional**

## Airports

This terminal is one of the main gates welcoming international visitors to Indonesia's capital. Located on the northeast side of the airport, it has a capacity of 25 million passengers per year, more than half of the total capacity of Soekarno-Hatta airport. LYSAGHT® KLIP-LOK® OPTIMA profile was chosen for its capability to build the shape of the roof which is slightly curved, covering 380,000 sqm of the main building area from end to end.
